Oliver Kask

Full Stack Engineer

Tartu, Tartumaa, Estonia • oliverkask99@gmail.com

SUMMARY

Senior software engineer with over 7 years of experience in software development. Specializes in web, and back-end platforms and expertise in platform development, enterprise architecture, Agile methodologies, and web-based applications. Good team player with an innovative mindset and possesses proficient problem-solving and analytical skills.

PROFESSIONAL EXPERIENCE

REWIR   Full time, Remote | Stockholm, Sweden
Full Stack Engineer   10/2022-08/2024

- Developed a new microservice architecture and helped the company transition from a monolith app to microservices.
- Implemented, tested, and launched a new microservice architecture.
- Used Jira for feature development tracking and bug tracking.
- Collaborated with the product team to come up with proper specifications and clarify requirements.
- Conducted code quality checks and code reviews. Led educational sessions for the remote team.

Technologies: React, Next.js, TypeScript, Kotlin, Node.js, Tailwind CSS, PostgreSQL, GitHub Actions, Docker, Terraform, AWS Lambda, Amazon ECS

APPNOVATION TECHNOLOGIES   Full-time, Remote | Vancouver, Canada
Software Engineer   09/2021-09/2022

- Built a new version of a highly scalable and robust back-end system using the microservices architecture.
- Built a monitoring and alerting system using Prometheus and Grafana.
- Used Jira for bug tracking and feature development tracking. Used Confluence for documentation.
- Implemented a full release cycle, including CI/CD pipelines.

Technologies: React, Next.js, React native, GatsbyJS, Node.js, PostgreSQL, AWS Lambda, Kubernetes, Amazon Web Services, Material UI

MY TRENDING STORIES   Full-time, Remote | New York, United States
Software Developer   05/2019-08/2021

- Built a new product line to enable customers to sell existing inventory online through our platform using Angular, .NET, NgRx, Azure, and Nx.
- Created an automated deployment pipeline for eight different websites and platforms.
- Engineered in-house Angular UI component library to support the web application.
- Implemented 100% test coverage from back-end to front-end.

Technologies: Angular, .NET Core, NgRx, PostgreSQL, Azure, Amazon Web Services, Angular UI

ACCENTURE   Full-time, Remote | Dublin, Ireland
Software Developer   06/2017-04/2019

- Built a new back-end system using microservice architecture and successfully launched.
- Performed a real-time data migration from a legacy system to a new system.

- Created and distributed tasks. Managed development process using Scrum. Conducted core quality checks and reviews.

Technologies: React, Kotlin, GitHub, Redux, Model-View-Controller (MVC), Spring Boot

EDUCATION

University of Tartu   **Tartu, Estonia**
Bachelor Degree of Computer Science   **09/2013-06/2017**

Skills

- React.js, Tensorflow
- IntelliJ IDEA, Git, Postman, Slack Development, Jira, Confluence, Elastic, Ansible
- Go, Java, Python, JavaScript
- REST, Microservices Development
- Linux, Docker, AWS, GCP, Kubernetes, Firebase
- PostgreSQL, MySQL, Redis, Elasticsearch, Database, MongoDB
- Spring, Django
